ANDALUSIA IS IDEAL FOR GOING CAMPING IN WINTER:

From december to february the average temperature is 18ºC, higher than anywhere else in Europe. An average of just 80 liters of rain in these 3 months (less than half of what falls on average in the UK). Good campsites (high ratings in European guides). Very attractive prices (as you can check in this brochure. Andalusia, the most authentic part of Spain, opens all year round, so you won´t get bored. Lots to do on the campsites and in the region, incredible variation.
